# Terminal Adapters

## DESCRIPTION

This white rectangular box extender is designed to fit both handy boxes and 4-inch electrical boxes. Made from durable plastic, it has a variety of sizes to match different customers' needs. This box extender is compatible with all standard devices, including switches and GFCIs, allowing for easy and versatile use

## FEATURES

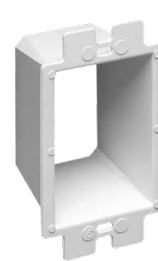

- Provides stability and alignment for the wiring device when the electrical box is recessed from the wall surface
- Compatible with 4-inch square electrical boxes and plaster rings equipped handy boxes, specifically designed for installing single switches or receptacles
- Constructed using flame-retardant plastic that holds a 94 V-0 fire rating and is rated for continuous use at temperatures up to 105 degrees Celsius, ensuring enhanced safety during installation

## MATERIAL

PVC
