AMMO ITEM #

ARTR-10

Company: _____

Job: _____ #Item: _____

Notes: _____

Threaded Electrical Support Rod

APPLICATION

Hanging building components needs sturdy structural setups
(HVAC, plumbing, electrical, hanging)

FEATURES

- The assemblies consist of support members fastened to anchor points with fasteners
- Threaded rods are packed in sturdy cardboard tubes for shipping, then placed on pallets
- According to standard DIN 976-1 / ISO 7412
- Property Class 4.8
- Yield Strength: 36000 lbf/in²
- Tensile Strength: 58000 lbf/in²
- Rod with fully thread

MATERIALS

- Low carbon steel grade 4.8
- ASTM A307 Grade A

FINISH

Electrogalvanized
